2. CVs of the employees;
3. Case studies; and
4. In-take form.

### 4-1 Organization details

If you are a first-time applicant or a returning grantee, please complete this section. If you are a returning grantee, please check and update if necessary.

**Note:** Kindly note that failure to update contact details of the organization may seriously affect communication with the Secretariat of the Fund and may eventually lead to the cancellation of a grant.

### 4-2 Banking details

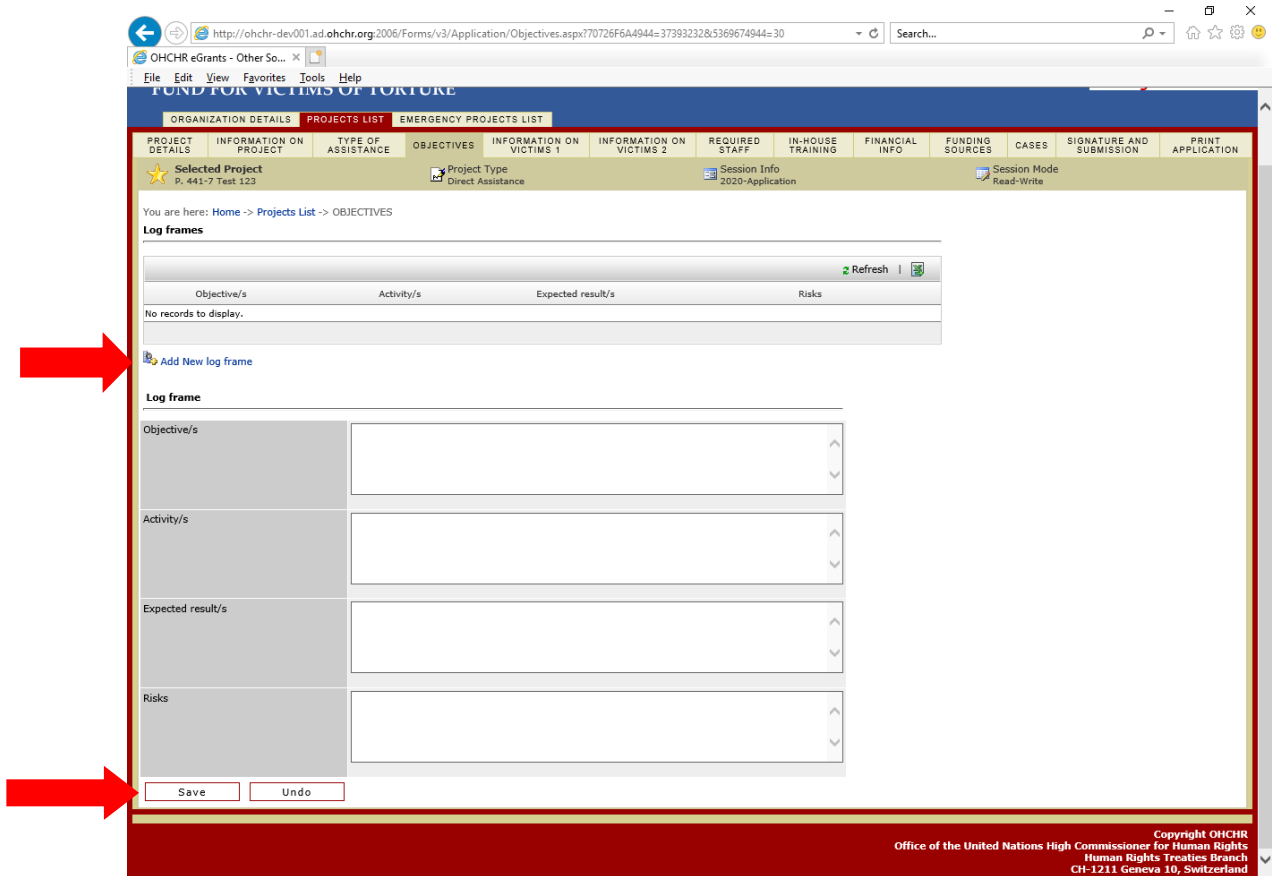

Once this information is saved by the system, you will only need to update it in the future, if applicable. Kindly note, that failure to update banking details of the organization may seriously affect the disbursement of grants and may eventually lead to the cancellation of a grant.

### 4-3 « Type of assistance » table

After selecting the type of assistance by ticking the appropriate cell (legal, medical, etc.), press the button "**Add new record**" and select a sub-category (by selecting from the dropdown menu proposals, or by writing directly into the cell). Then, save by clicking the "**Save**" button on the left of the screen. The next step is to describe the activities in the box provided for this purpose. It is important to indicate whether it is a new activity or an ongoing by ticking in the relevant cell, and specify the percentage that this activity represents in the project.

### 4-4 « Objective » table

To insert a new objective, click on "**add new log frame**" in the first table that appears. A second table will open immediately. After answering all questions in the second table, click "**save**" below this second table and the information will appear in the first table.

- Make sure you introduce all details requested, including sub-total by origin (by adding new records) and by target group.
- All numeric data should only be introduced without decimals.

- The total number of victims to be assisted indicated in questions 3, 4 and 5 should be equal to the sub-total to be assisted with UNVFVT grant (in question 2).
- 
- Click on “**Save**” to record the information.

**IMPORTANT:** For statistical purposes, please fill the table “sub-totals by target group” to the maximum extent possible. Please note that the choices can be multiple.

#### 4-6 Staff required

- Kindly note that this section should include information on ALL staff involved in the implementation of the overall project, regardless of whether their salaries will be covered with the Fund’s grant or not.
- Enter all categories of posts and positions in the project in the first table.
- The second table provides additional information on all staff members of the project. Add each staff individually by adding one record per staff member working under the project,

- For both tables, save each record when you have complete all fields. You can edit and delete records as necessary.
- To delete a post/position, you must first delete the corresponding staff members' records in the second table.

- Save the budget line before you use the field for comments for the corresponding line.
- Use the fields for comments per line to explain and provide additional information on each budget line and type of expenses, if necessary. It is particularly important to provide information about the calculation behind the cost per unit indicated.
- As you elaborate the proposed budget, you can choose to see the percentage allocated to each type of expense by selecting the tab to show calculations and percentage.

\* For more information on how to allocate the budget lines for different types of expenditures, please see the attached annex.

**IMPORTANT:** As per paragraph 11 of the UNVFVT Guidelines, funding requested to the Fund should focus on providing direct assistance to victims of torture. Administrative costs should be reduced to the strict minimum and, in principle, should not be higher than 13% of the total cost of the project (NB: salaries however are not automatically considered as administrative costs for this purpose and can be entered in other categories).

#### **4-8 Funding sources**

- To report any type of IT problem and/ or question, please send a message to [ptissier@ohchr.org](mailto:ptissier@ohchr.org).

- Once you have completed the entire application, check that all information is there before submitting it. You can do this by using the print out option. Please note that in the case where mandatory fields are not duly completed, the system will not allow your application to be submitted.
- All organizations which complete their online application but do not press the "**Submit**" button by the time the application period is closed down will appear in the system as "Incomplete."
- If the fields "**Authorizations**" and/or the "**Agreement with the terms and guidelines of the Fund**" have not been ticked before clicking the 'Submit' button, a warning message will appear at the bottom of the page, and the application will not be considered as submitted (hence featuring as "Incomplete" at the time of closing of the call).
